MAUA BANK,
101—103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank :—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

PALMAM QUI MERUIT FERAT.

PENEDOS VEGETABLE SYRUP.
THE MOST CERTAIN AND SPEEDY REMEDY EVER DISCOVERED FOR ALL DISORDERS OF THE CHEST.
ASTHMA AND CONSUMPTION.

No other diseases sweep away so many thousands as ASTHMA and CONSUMPTION, and not because of any want of means of checking them, on their first approach if those attacked would adopt proper remedies early, but, unfortunately, these are neglected, and recourse is not had until the disease is firmly established in the Lungs, from whence (until lately) Physicians had not discovered any means of dislodging it. Professor Penedo's Syrup supplies now that DESIDERATUM to sufferers, as the rapidly extending fame of this Preparation testifies it.

COLDS, PAIN IN THE CHEST, SHORTNESS OF BREATH, PHLEGM, AND INFLUENZA.

A difficulty of breathing, or a sense of tightness or pain in THE CHEST after exertion, a cough or an expectoration of phlegm, however slight at first, will surely prove the germ from which one or other fatal diseases will take their rise, if not early removed, in such cases,

PENEDO'S VEGETABLE SYRUP
must be taken three times a-day, as directed, or oftener, according to the urgency of the symptoms, and this will be found sufficient for the cure of all recent affections of the Lungs.

COUGHS.

This severe and most dangerous disease very frequently becomes most troublesome, which, if not ending in Consumption or Asthma, proves most distressing and weakening up to the patient.

PENEDO'S VEGETABLE SYRUP
should be taken until it is entirely removed, which it will speedily do if taken regularly.

WEAKNESS OF THE VOICE AND HOARSENESS.

In all cases where the diseases have occurred suddenly from Colds, exertion of the Voice, &c.

PENEDO'S VEGETAALE SYRUP
has been most successful in effecting a radical cure in cases which have existed many months.

PENEDO'S VEGETABLE SYRUP
is of the highest utility in all diseases of the Chest and Lungs. This fact is proved by the many testimonials handed to the Proprietor by men of acknowledged ability and reputation.

The following certificate is one of many that have been received by the Professor:—

Rio Janeiro, May 1, 1869.
Professor Penedo.
Dear Sir,

I feel bound to acknowledge the marvellous results effected by the Syrup, called
"VEGETABLE DE PENEDO,"
In the Province of Rio Grande, and it is, in my opinion, a most valuable medicine in all cases of Pulmonic Affections on Diseases of the Chest, many of my patients, who have had occasion to use your Specific for these complaints, have assured me that they invariably derived the greatest benefit.

THE MORON DERBY.

The race between Gauchito and Colfax at Moron has been the universal topic of conversation for the last ten days, and caused so much speculation and excitement that it was to be expected that the concourse of people would be great; but nobody had formed the most remote idea in any way approaching the reality. Mr. Elordi and Mr. Allen had had some faint anticipation of what was going to happen, and taken all possible precautions as far as the means at their disposal allowed, but even they had underrated the exigencies of the case. From an early hour of the day the Parque station and all the approaches to it presented a most animated scene. The ticket-office was surrounded by a compact mass of people, and the attempt to get a ticket was attended with no small risk of being squeezed to death or having one's clothes torn to rags. At last the sale of tickets had to be stopped, but the sovereign people were not to be baulked, and bursting open the door leading to the platform, invaded the train that was preparing to start, which was already full, and squeezed themselves into all manner of impossible places. Even so, every train that started left hundreds of people behind; and it reflects no small credit on the officials employed on the Western railway that with all the unavoidable confusion and the number of trains going on a single line, we have not heard of a single accident having happened. A large number of people got away without a ticket, and although most of them were anxious to pay, there was no possibility of the guards circulating inside the cars and waggons, where human beings were packed like sheep. Hundreds of people on reaching the station and witnessing the state of things, to which the confusion of Babel must have been child's play, gave up the idea of going. Among them we noticed many known ladies who showed their wisdom by a prudent retreat, though by their absence they deprived the day's proceedings of one of its greatest attractions.

After waiting at the Parque station for more than two hours, and seeing two trains start, each of which occupied over a square and a half of ground, we were fortunate enough to get a seat in an express one that started at 20 minutes before three. The greatest hilarity pervaded the number less occupants of our car, who comprised a motley assembly of all classes of society and every imaginable nationality, from the perfumed diplomatist to the unwashed peon. The rival merits of the two racers formed the favourite topic of conversation, although perhaps not two people in a thousand had ever seen either. One native gentleman who was known to have staked largely on Chiarini's horse, some say as much as 100,000 dollars, assured a friend of ours that he had never seen the horse, had no faith whatever in him, but that he liked Chiarini, and therefore had betted in his favour. This has been the case with the majority of people, who were completely fascinated by Chiarini's great pluck in taking up all bets offered to him to an amount unusual even among our most inveterate turfites, and thus giving a most eloquent proof of the unbounded confidence he felt in his horse.

The unusually deserted streets of Moron presented a scene of animation never before witnessed. Each successive train that arrived poured forth its masses of living beings, who, with few exceptions, had to tramp in clouds of dust to the racecourse, a distance of nearly a mile. All the vehicles in the town and the neighbouring villages had been called into requisition, but they could avail only an infinitesimal proportion of people bound to the races. Long before two o'clock the Grand Stand was crowded in every part. The upper portion was almost entirely occupied by Italians,—and it was only in the lower compartments that some ladies enlivened by their sweet presence the sombre appearance of the stand. The construction and arrangement of this ugly building was much criticised, as it looks more like a big granary than a race stand. No doubt its constructors had an eye to business, and thought it might some day or other be used for a galpon or a barraca.

In the small box intended for the Judges and the Commission several ladies might be seen, principally those belonging to Mr. Chiarini's troupe, who were all present. The space in front of the grand stand, and the racecourse for nearly two squares was thronged with a mass of people eagerly moving about, and here betting was going on briskly up to the moment that the horses started. It was quite evident that the race assumed a national character. With but few exceptions the English 'en masse' were ranked under the leadership of General Anderson and Captain Miller, backing without limit Gauchito, whilst the 'oi polloi' under Field Marshal Chiarini were the staunch supporters of Colfax. The Argentines as usual, were divided; Hector Varela was with the Britishers, which showed his good taste and unerring judgment, whilst our much esteemed Vice-President shouted stentoriously 'Colfax for ever.' Governor Castro lost a few dollars, but that is nothing.

At 3.30 the bell rang for saddling, and shortly afterwards the coursers were led into the paddock and the jockeys weighed. As soon as it was known that the competitors were on the course a rush of people surrounded them, and it was with the greatest difficulty that the united efforts of the owners aided by the commission, could prevail on the excited multitude to allow them to walk about. Colfax was admitted by all to have an imposing appearance, but connoisseurs at once saw that his condition was anything but reassuring. He had been reduced so much that people who had seen him a month ago scarcely recognised him. Gauchito on the other hand looked to a practical eye all over a winner, notwithstanding his disadvantage in size. Considering the short time he has been in training, his appearance well justified the reputation of Benito Valenzuela, the king of trainers. He was ridden by Tomas Grigera, who gave him a few preliminary canters, while Colfax was only walked about previous to start.

Shortly after four the horses went to the starting post, the Juez de Paz Mr. Naon, having kindly consented to take charge of the flag owing to the absence of the person appointed. The start was admirable and when the flag was lowered both horses were very even. Gauchito sprang forward and in the short distance between the starting post and the judge box, he was three lengths ahead and fast increasing the distance from the other horse. Long before coming to the first half round it had increased to a square, and then Grigera gathered him up and came leisurely along, sometimes allowing Colfax to diminish the distance a little, then suddenly springing forward for a few hundred yards. In this way he went the two rounds, and passed the winning post in a canter with a lead of more than half a square, amid the waving of hats and most deafening cheers of the assembled multitude.

Mr. Chiarini bore his defeat with a good humour, that was in the highest degree creditable to him, and we trust that those who blindly followed him will also in this follow his example. He acknowledged that his horse had been subjected to too severe a training.

It is difficult to calculate the amount of money that changed hands on this event which will make an epoch in our annals; turf by the lowest computation it cannot be less than one million and a half of paper dollars. Mr. Chiarini's share of which is said to be not far short of half a million.

THE WRECKERS AGAIN.

Within the last few days no less than three foreign vessels have been wrecked off the Lobos Island, and in the general interests of commerce we call attention to the fact that, notwithstanding the continued maritime disasters, the remonstrance of foreign ministers, and the attacks of the press, the Montevidean Government will not restore the Lobos light to its proper place. In presence of such flagrant conduct on the part of a Government which claims to be respected, it is difficult to point out a remedy. The hypocrisy of that Government in publishing decrees and calling for proposals for setting up the light in its proper place, is now so apparent that no official declaration carries the slightest weight. The lighthouse has been removed, and will not be restored so long as the seal fishery pays a revenue to the Government.

We read of a vessel after a long and tedious voyage from the Mediterranean crowded with immigrants just entering the Plate, making for the harbour of Montevideo, with a lighthouse in the offing to guide her, when suddenly the ship strikes on the rocks some five miles off from the shore, and the astonished captain, to his horror, discovers that the light which served as a beacon is not on the island but the mainland, and his vessel is irretrievably lost. Two other vessels making for Montevideo got in between the island and the shore, and might have escaped but for the heavy sea on and gale blowing—they also went down.

Now it is really afflicting to remark with what apathy the public day after day read the most harrowing details of shipwrecks on the Lobos Island; and yet no public demonstration is made to demand and insist on relief. Are we to be told that the profits of a miserable seal fishing can be weighed in the scale with human life? and yet this is the real secret of this infamous snare at the mouth of our river. Where are the Admirals of the Station, that they calmly tolerate an abuse which could be only looked for on the Hoang Ho, or some small river in Barbary.

Bless the days of Edward Pellew, when pirates and wreckers got what they deserved; had we an Exmouth in these waters, the Montevidean Government would very soon have the seals on that wrecking Island sent about their ears; and every fisherman's hut on Lobos levelled to make room for a light-house, but the days of Pellew have passed for ever, and more's the pity. The Admirals on the Station do duty in the perfumed chambers of Buschental's quinta or the Hotel Oriental, and the flags of their country go down on the treacherous rocks of Lobos, unwept, unhonored, and unsung.

There is no language too severe for such conduct, and with the wild waves breaking madly over our wrecked and dismasted shipping, we put it to the British Minister in this Republic, whether it would not be better to turn his attention to this sad and melancholy point, instead of employing his time and influence on such a seedy topic as that conveyed in his last despatch to the Foreign Minister.

The crime of the Montevidean Government in thus beaching the poor immigrants who leave Europe for these shores, may be aptly termed international murder; and, if we cannot place the President of the Banda Oriental and his ministers in the felon's dock, and try them all on a charge of wholesale maritime murder, at least we can hang them on the gibbet of public opinion, and ask who dares to cut them down?

That we are all a great and magnificent people in the River Plate, is an admitted fact. Our trade and commerce is immense, and our progress unmistakable; but we lack the greatest element of all, "public spirit;" there is none in Buenos Ayres; there is none in Montevideo, or long ere this the outraged public would have risen 'en masse' to condemn the administration that has caused such widespread disaster.

No wonder that rates of insurance have gone up, and in the great ports of Europe it is often difficult to effect a charter for the Plate. The plain fact of the matter is, Montevideo and B. Aires have secured the most wretched reputation in the maritime world—not a ship-captain that sails out of this port but leaves with curses loud and deep. We hear nothing of all this at the Club Progreso, or even at the Government House. The native papers never have time even to advert to it; but go to the ship-brokers office, go out into the roads, or on the Stock Exchanges of any port in Europe, and Argentines and Orientals will learn whether our assertion is correct or not.

We dream that by calling public attention to this melancholy subject, we may effect something; but 'tis all in vain; the matter should be taken up at Lloyd's, brought before the House of Commons—the shipping interest of England must surely have some representative there, who will explain to the House that the removal of the Lobos Light, at the entrance of the River Plate, has cost British underwriters millions, and strewn that lonely beach with hundreds of British corpses.

FINANCES AND PUBLIC DEBT.

The statements of the Contaduria up to Dec. 31st, 1868, are highly interesting, and may be summed up in a few lines: the revenue returns for the year were—

Import duties	9,660,507
Export duties	2,281,381
Stamps, &c.	554,238
	12,496,126$fts.

The expenditure was as follows:—

Paraguayan war	5,317,110
Revolution in Provinces	1,171,070
Ordinary War expenses	1,543,612
Interest on Debt	1,842,821
Home Department	2,346,425
Finance	855,180
Education	420,876
Foreign Affairs	75,807
Outstandings, &c.	5,273,368
$ fts.	18,846,269

From the above it will be seen at a glance that the import duties form four-fifths of our revenue, and that but for the Paraguayan war and the revolution in the upper provinces this single item would have sufficed for all the expenditure of the Republic. The deficit in the above returns was made good by borrowing six millions, of which one half was from Riestra's loan in London.

Comparing the returns of 1868 with those of the previous year, we find the following:—

	1867	1868
Import duties	8,713,074	9,660,506
Export duties	2,535,629	2,281,386
Stamps, &c.	791,584	554,234
	12,040,287	12,496,126

This shews an increase of nearly a million (say 11 per cent.) in imports and a falling off of a quarter of a million (say 10 per cent.) in exports as compared with 1867. In looking over the list of Custom-houses we find Buenos Ayres yields five-sixths, Santa Fe one-tenth, and the others come as follows: Entre Rios, Corrientes, Mendoza, San Juan, Salta, and Jujuy. The returns of Buenos Ayres shew an increase of half a million, while Corrientes, Santa Fe, and Entre Rios had collectively a falling off of $200,000 from the previous year.

The statement of the public debt is as follows:—

Nat. Bonds, 6 per cents	11,740,705
Do. do. with 2½ amortiz	2,268,245
Foreign Debt	2,080,462
Riestra's loan (£2,490,000)	12,201,000
Provincial Bonds 6 per cent.	744,000
Do. do. 9 per cent.	1,475,600
Buenos Ayres loan (1824)	9,635,360
Total $ fts.	40,145,303

THE ATTEMPT ON MADAME GAVOTTI.

We extract the following details of the daring attempt on Madame Gavotti Gomez from Sig. Fiorini's letter to the Italian paper:—

"On Saturday night, about half past ten, I was with Madame Gomez in a hack-coach, when at the corner of Calle Defensa and Comercio the coachman halted and took up on the box, a man roughly dressed, whom I supposed to be some friend that he was taking home to the Plaza Victoria. Suddenly the coach turned out of Calle Defensa and was driven rapidly towards Calle Europa. I put out my head to order the coachman to return to Calle Defensa, but the fellow on the box with some weapon in his hand urged on the coachman and threatened me also. Madame Gavotti Gomez at once saw that there was some sinister plot and threw herself out of the coach while going at full speed: luckily she fell in a pool of mud and water. I jumped out immediately after, and found two men picking her up; one of them appeared a gaucho, and it appears they had followed the coach for some distance. Madame Gomez was in a state of great alarm, crying loudly for help; her condition was lamentable to behold. The fellow on the box got down and said he was taking her to the Comisaria de Policia, I asked him if he had any written authority, or could even tell us our names; he replied that he did not know who we were, and had to give explanations to nobody. A crowd of people soon gathered around us, including several 'serenos,' I called upon the serenos to to protect the lady and arrest the scoundrel: they seemed most willing to do so until the stranger whispered some words to them, and one of them went for a Commisary. Presently a 'vigilante' came up and seemed to protect us asking by what authority the stranger pretended to seize us. He said something in reply which caused the 'vigilante' to retire, saying "We shall see to-morrow who is right." Thereupon a man who pretended to be a Commissary came up; the stranger pointed out to him those of the crowd who took the lady's part, to whom the so-called Commissary remarked "that the police can arrest any and every body." He told Madame Gomez not to be alarmed, and said that I might take her back to her hotel. The coachman was so frightened that he drove off without us, leaving us afoot at twenty cuadras from Plaza Victoria. Madame Gomez was hardly able to stand, but some ladies who live at 84 Calle Europe kindly took her into their house, while I went for another coach.

"If outrages of this kind are permitted under the guise of the authorities, no man's life is safe. The Chief of Police, Sr. O'Gorman, has promised me the fullest enquiry into the matter, and I believe he is sincere in his professions.

ANGELO FIORINI.

THE SAN CARLOS TRAGEDY

It is strange that the only papers in Buenos Ayres which take up the question of the murdered colonists of San Carlos are the 'Courrier' and 'Standard.' We take from our French colleague the folloring appropriate remarks.

"Our readers are aware that at a short distance from the Swiss Colonies there is a 'tolderia' of so-called civilized Indians, received as Argentine citizens, and treated with great attention by the National Government, which pays their Cacique as a military officer. This kindness has been taken for weakness by the savages, and since the revolution which overthrew Governor Oroño, their cacique, Denis, has assembled at the 'tolderia' of El Sauce all the ruffians that love plunder and booty. Whenever a robber or assassin wanted to escape justice he joined this pretended frontier garrison, and found every protection from Denis, who received a certain portion of all the booty stolen from the colonists or others. For a long time this has gone on with impunity. At last on the evening of Friday 14th inst. half-a-dozen of these banditti, improperly called frontier troops, attacked the shop of M. Lefebre and robbed the place, after butchering in cold blood the owner of the house, his wife, three children and servant, thinking they had left no one alive to tell the tale. There was, however, a little boy hid somewhere who saw the terrible tragedy, and soon gave the alarm, telling also the names of the murderers, who were known to the family. At once a band of seventy colonists hastened to the 'tolderia' and demanded of Denis to give up the culprits, which he, as usual, refused to do: he tried to escape, but was overtaken by five bullets, which rid the country of the scoundrel. This has been a triumph of Lynch law, the 'ultima ratio' of a people suffering from inept or culpable authorities. The death of Denis is a valuable lesson for the Argentine authorities, who will now begin to learn that people cannot look tamely on when such bloody outrages are perpetrated and seemingly encouraged by the apathy of the paid officials of Government. Every Chief of Police, who, by his negligence, is responsible for outrages on life and property, becomes an accomplice in the same. Let all such functionaries, and in fact, the authorities in general, meditate on the fate of the ruffian Denis."

EDITOR'S TABLE.

The race at Moron between Gauchito and Colfax is still the general topic of conversation. Colfax completely disappointed the expectations of his backers, never making even a decent attempt to collar his adversary, who cantered away from the starting post, and 'walked in' a winner by at least a half a square. The amount won by Gauchito's backers is said to be enormous. Nothing equalling the excitement caused by the match has ever before been witnessed in this country. There is a rumor that the horses will again be brought together for another trial, but no definite arrangement has as yet been come to on the point. The Western Railway Company is said to have netted a very large amount by the receipts of the day. The arrangements for the conveyance of the public to and from the course were as perfect as could be expected. In another column will be found a full and detailed account of the race.

We understand that, as soon as the lands ceded to the Central Argentine Railway Company for the construction of their line will have been legally conveyed to them, it is the intention of the Directors to raise at home a loan of a million sterling, on the security of the lands, the entire amount to be applied in bringing emigrants from England to settle on them. The scheme is a vast one, and if successful, must produce great results.

We learn from private sources that the state of affairs in Montevideo is daily becoming worse. The gravest apprehensions are entertained even in Government quarters, and the troops are kept under arms night and day. Things cannot possibly go on much longer in the neighboring republic as at present; trade, credit, law, and order are alike prostrated, and a social storm is, we fear, the only alternative for clearing the political air. The resignation of Sr. Bustamante must soon bring things to a crisis.

The late attempt on Madame Gavotti is arousing public indignation, the matter looks very badly for the police, and is one calling for the energetic interference of the Government.

A sad accident occurred on board the Bourgogne on her last trip out. A passenger who had been ordered under arrest for disturbing order on board, asked for a few moments respite on some trifling pretence, and watching his opportunity jumped over-board. He was instantly swallowed by a shark within sight of his terrified fellow-passengers.

A proposal has been submitted to the Provincial Government by Messrs. Ovalle Brothers for extending the Western Railway from Chivilcoy to Mendoza, a distance of 600 miles.

The fact of there being no officially quoted price of the Public Funds on Wednesday is accounted for by the "Nacion", on the grounds of the declining credit of the Government. This statement is puerile in the extreme; the paralysation was caused chiefly by the flight of a leading dealer, Sr. Gomez, with 100,000 pats. in gold, and was contributed to in some measure by the absence of many speculators at the Moron Races.

Mr Treuenfeld isat present engaged in superintending the placing of telegraph wires between Rosario and Santa Fé, under the contract lately entered into between Mr. Hopkins and the National Government.

We regret to inform our readers that our celebrated Paraguayan canoe has disappeared from its moorings on the river bank. Whether this irreparable loss has been inflicted on us by the last storm, or by the hand of some unknown kidnapper, can now never be known; if the latter, we say from our hearts, "may the Lord forgive him, for we never can." We have sent telegraphic despatches to all the riverine ports, in the faint hope that we may recover this invaluable relic.

It is said that all the National Guards forming part of the expeditionary army in Paraguay will shortly be ordered home.

Dr. Leeson, who has just returned from Europe, has taken a house in Calle Defensa, half a square from the celebrated Standard Museum.

The Bishop of Salta, who left for Europe in the Bourgogne, and not in the Arno, as stated by a colleague, was robbed of a considerable sum of money and all his clothes at his lodgings before his departure; the hats of the clergymen of his suite were all taken, but his Lordship's was, strange to say, spared by the thieves.

Dr. Avellaneda reached Rosario on Sunday, 'en route' to Cordoba; after a short stay H.E. proceeded on his journey.

A dastardly attempt was lately made in Salta to assassinate Don Francisco Ortiz, Deputy to Congress for that province. While he was walking in his garden with a friend, he was suddenly attacked by three men with stones, one of which wounded him in the forehead. On his drawing a revolver the men fled. The motive for this cowardly attempt is at present unknown.

Shearing is expected to begin generally on Monday next, if the weather continue fine. Notwithstanding that estancieros are endeavoring to reduce the price to be paid to shearers, it is expected that good wages will be paid for this work during the season.

We understand that the telegram sent from Rosario the other day in reference to the atrocities lately committed in the Santa Fe Colonies was sent by the Telegraph Company on their own responsibility, and not as a Government despatch. The officials deserve credit for this promptitude in the public service.

A tilbury drawn by a spirited horse was upset the other day in Calle Corrientes by getting into a rut. The animal commenced kicking furiously and soon demolished the tilbury. Its occupants would have also been sent to 'kingdom come' but for the interference of some passers by, who pulled them from beneath the smashed remains of the vehicle.

The opposition organ 'La Nacion' continues its attacks on the Government; the subject as handled by our colleague is becoming flat, stale, and unprofitable, 'toujours perdrix ne vaut rien.'

The Athletic Sports meeting comes off on next Monday week. It will be the best ever held. The race of the day will be for the 'Standard kettle.' It was constructed on the newest principle with the view of brewing whiskey punch, but we have no doubt it may answer equally well for manufacturing less exhilirating beverages.

The extortion practised by public drivers is becoming the subject of serious complaints in all quarters. The fares nominally charged per hour is twenty-five dollars, (a preposterously high one), but happy is the man who can get a carriage for that mentioned at twice the money. The incivility of the 'Jehus' is also sometimes overbearing, in fact, we want sadly a reform in the police regulations respecting public carriages.

We passed the Consulate of the North German Confederation in Cordoba the other day, and were astounded at the enormous size of the flag displayed over the premises. The mainsail of a three-decker or pocket handkerchief in comparison. It is symbolical no doubt of the far-ranging views of political aggrandizement entertained by the Prussian founder of the Confederation.

The rumpus in Cuba has rendered it impossible for anyone but our merchant princes, auctioneers, and bears on the Bolsa to indulge in the luxury of a good Havannah, owing to the extravagant price of the article. We have ourselves been obliged to fall back on Bahia's. Tea also is very bad and dear; our friend Turnbull accounts for this by the derangement caused in the labour market of the Celestial Empire, from the immense exodus of coolies now taking place from that country to the United States.

Pickpockets were busy on the race course at Moron on Wednesday. A leading English broker lost 10,000 dollars which he supposed was taken out of his pocket by one of the light fingered fraternity.

The correspondence between the resident Minister the Honorable Mr. Stuart and the Argentine Foreign Office respecting the introduction into this country of seeds and plants from Australia, Queensland and other English colonies, has been published. The Rural Society undertakes the management of the affair.

The entries for the two handicap races at the Jockey Club meeting to be held on the 11th November at Belgrano close on Monday at 12 o'clock noon. See programme in to-morrow's issue.

We understand that Mr. John Lumb may be expected back in the River Plate within a few months.

The estancieros are still sending the greater portion of their stock to the graserias notwithstanding that the shearing season is at hand. The high price of skins caused by the demand for North America, makes it more profitable to boil down than to shear.

The evening official organ in an important leader on the war, says that a well mounted force of 6000 men would now be quite sufficient for bringing the campaign to a close. This gives colour to the report that a large proportion of the Argentine army in the field will soon be ordered home.

News from the Upper Provinces state that the opposition are making every effort there to secure the return of their nominees to Congress at the next elections. In Catamarca the agents of General Mitre are said to be particularly active.

The National Government are, it is said, considering a project for the construction of a port, Custom House and office for the Port Captain at Rosario. The project is a useful one, but just at present, the existing accommodation is quite sufficient for the limited trade of the place.

Don Alejo Arocena assumes the Chairmanship of the Board of Directors of the Provincial Bank, during the absence of Don Mariano Acosta.

It is said that Sig. Chiarini loses not less than £4,000 in bets, through the defeat of his horse Colfax on Wednesday. The gains and losses are very large. The aggregate amount said to have changed hands on the occasion is estimated at about £12,000. Another set to' between the winner and a 'dark one' is spoken of as likely to come off soon.

"Nothing in the Papers" is the universal complaint. There seems to be an editorial 'seca' prevailing. Nothing to write about, consequently nothing to read. We have struck off an additional number of copies to-day with our account of the race which decidedly cannot be called 'nothing.'

The Luke Bruce has recently arrived from Liverpool in forty-seven days.

Great excitement was caused yesterday when it became known that Colfax, the defeated horse at Moron on Wednesday, was dying. It was at first supposed that the overtraining he received or the exertion of the race, was the cause; but the fact that a mare in the same stable is also very sick leaves room for grave suspicions, if not certainty, that the horse has been poisoned. This is a most disgraceful business, if true.

The Copernicus is hourly expected with dates to 21st ult.

LAUNCH OF THE NILE.

A new screw steam ship, named the Nile, built for the West India Company by Messrs. Day and Co., of Southampton, was launched from their yard at Northam, this day, in the presence of some thousands of spectators. Among the company present upon the occasion were Captain Mangles [Chairman of the West India Company]; Admiral West, Captain Wilson, Mr. Barlow, Mr. Tuffnell, and Mr. Behere (directors), Captain Vincent (superintendent of the company), Mr. Alderman Stebbing, &c. The ceremony of naming the vessel was gracefully performed

by the daughter of Captain Mangles. A bottle of wine having been broken across the bows of the Nile the dog shores were knocked away, and she glided smoothly and majestically into the water amid the most hearty cheering. A more successful launch could not have taken place. The Nile has been constructed from designs by Mr. J. M'Cormack, the superintendent shipwright of the firm; who was also the designer of the steam ship Hindostan, built at Northam a short time since for the Peninsular and Oriental Company, and of other large vessels constructed at Northam. She is intended for the Transatlantic service, and her dimensions are as follows:—Length over all, 376ft. 2in.; ditto between perpendiculars, 346ft. 9in.; ditto on load water line, 340ft.; breadth, extreme, 40ft. 5in.; depth from top of keel to under side of spar deck, 35ft. 7in.: tonnage, builder's measurement, 2742 and 39-94ths: ditto, gross register, 2994 tons. The Nile is built with a head knee, and figure, ornamented with emblems appropriate to the river from which the vessel is named, and standing bowsprit. Her stern is elliptical. brig rig, with iron lower masts. Her hull is constructed of the best Staffordshire iron below the level of the load-water line, and of tough steel above, by which means the maximum of strength with a minimum weight is secured. She will have accommodation for 276 first class, 48 second class, and 45 third class passengers. Her dining saloon will be fitted with three rows of tables, and embraces the whole width of the after part of the vessel, so that a thorough ventilation will be secured through the large square ports at each side. The engines are direct acting and of 600 horse power nominal, and they have two cylinders, each 72in. diameter and 54in stroke, with surface condensers, and other appliances for economising fuel. She will have four boilers, fitted with brass tubes and a super heating apparatus; also an auxiliary boiler for working her two steam winches for loading and discharging cargo in harbour. In addition to the 40 tons of fresh water carried in her tanks, she is fitted with Normanby's distilling apparatus, capable of making 700 gallons of fresh water per 24 hours. She will stow 1200 tons of coal in her bunkers, and 800 tons of cargo in her hold. The substitution of such steamers as the Nile, propelled by the screw, for the old paddle steamers, will be attended with great benefit to the Royal Mail Company, as the saving of fuel alone on each voyage will amount to a sum of over £2,000, which will be still further increased by the greater quantity of cargo carried by screw steamers than by those propelled by paddle-wheels. After the launch the extensive ironworks of Messrs. Day and Co. were thrown open to the company, and a numerous party partook of lunch, and drank success to the Nile, the latest addition to the West India Company's fleet.

EXPORT OF LIVE STOCK.

An experiment of importance towards solving the question as to the possibility of obtaining supplies of fresh meat from the practically boundless plains of the River Plate has been successfully completed. It was stated in April last that the Government of the Argentine Republic, and also that the Government of Uruguay, had granted to an English house the exclusive privilege of shipping live cattle from those States for a period of years, with entire exemption from all port charges and Customs' duties, and that in the first instance a small trial would be made of the effect of the passage. It now appears that the steamer City of Rio, which arrived on Friday last, brought nineteen oxen which had been shipped at Montevideo, and had been thirty-one days at sea, with, it is said, a short supply of water and scarcely any food but the commonest hay. No casualty had occurred among them, although from exposure and insufficient treatment they had become extremely thin. They were hurriedly shipped without selection on its being found that the vessel could take them, and the price paid at Montevideo was £5 per head, but a contractor at that port offers to supply any quantity at £4 per head, free on board, well prepared, and weighing not less than 800lbs each. It is also stated that the steamer by which these were brought had, on her outward passage, taken fifteen English bulls to Montevideo, consigned to Mr. Buschenthal, a large landowner, which arrived after a thirty-seven days' passage (the distance being about 6,000 miles) not only all well, but, from careful treatment, in better condition than at the date of their embarkation. Of course, these experiences furnish nothing decisive as to the commercial results to be looked for from the trade, but a steamer is now building expressly for carrying it on upon a large scale. This is expected to be ready in about six weeks, and will be followed by others of a similar character.

"TOO FAST."

To the Editors of the Standard.

Gentlemen,

Allow me to reply to a letter under the above heading in this day's issue as regards education in Brazil.

The last returns of the number of children attending primary schools in the Empire gave 137,483, at an annual cost to the country of 120 contos.

In the secondary schools an equal amount is annually disbursed, and the number of children attending over 70,000.

Education in Brazil causes less noise, but receives more attention than here, and money voted for educational purposes is economically expended, and gives good results.

As regards public education, this Republic is half a century behind Brazil. Yours, PRIMER.

ON 'CHANGE.

Patacons	25
Sovereigns	122½
Ounces	480
Nat. Bonds	—

The Gomez panic still continues. To-day there was no price for bonds, notwithstanding that a sale was marked on the board for the 31st October 10,000 at 58½; still everyone regarded the affair as a 'gato.' One broker offered 2,500 bonds for cash, but could find no buyer; at after hours, however, a leading English broker offered to buy them at 58. The extent, importance and effect of the Gomez business has yet to be measured, and from the extraordinary attitude of the market it is believed that the affair is more serious than at first supposed; several vain efforts were made to-day to establish a general arrangement or liquidation of accounts, but it was resisted by too many, on the plea of strict principle and public morality, to be carried. Publicly no arrangement can be entered into, all contracts must be fulfilled to the letter, or take the consequences. Parties can arrange amongst themselves in whatever manner they like, but all public transactions must be strictly up to the rules of the Bolsa, in such cases made and provided. It was evident to all to-day that many parties are unable to hold their ground, but it was asserted in the liquidation room that some two or three parties have satisfactorily arranged everything, and this news caused rather a better feeling in the Bolsa at afterhours: still the brokers think that before the 25th inst. nothing will be done in Bonds. Business for the end of the month will then begin, and the market probably settle down to its proper level.

Montevideo telegram says—Paper 88½ to ¾; 600 doz sheepskins at 5¾ cents 'al barrer.' Produce is paralysed, owing to little stock; hides dull. Arrived from Cardiff, Leopold II.

The history of the recent rise in stock is now looked into, and people naturally ask what would be the price of bonds in the market to-day had the great speculators who entered the market and given a fictitious value to these securities remained away, and this is regarded as the best rule to adopt to discover the intrinsic value of the security. The high prices paid by speculators have taken bonds out of the hands of good bona fide holders and placed them with bankers and others who have advanced the funds by way of loan to feed the speculation. There are several large holders of Hypothecated bonds at a valuation of 60, should these parties call in their money or compel the borrowers to realize, then indeed it is difficult to assign bottom to the market, but the impression is general that the banks and others will find it their interest to help the market and carry the bonds until prices have at least assumed a firmer tone.

Respecting Gomez it is known that the bills he took were payable to order and at 15 days' sight. An attempt to stop them was made to-day, but it cannot be done unless found in the possession of Gomez, which is extremely improbable. It is said that Mr. Gras has accompanied Mr. Correo Morales in his chase after Gomez. Mr Alkein has not departed.

Whether owing to the panic on the Bolsa, or the effect caused by the recent emission of bonds, or the growing conviction that the Paraguayan war is at last coming to a close, it is difficult to say, but certain it is that in general commercial circles there is an uneasy feeling. Money is scarcer, and the news brought up by passengers from Montevideo leaves little room to doubt that another political convulsion is at hand: the troops are under arms every night.

Eight carts of new wool arrived in the North Plaza to-day. It looks well, but as yet no price has been offered. Will be sold to-morrow.

Exchange rules the same; some bills passed to-day at 49, and a few small transactions at 48⅝; but the rate rules at 49.

The following are the arrivals and departures to-day:—

THE PERFUME OF A HEMISPHERE.—Throughout an area, occupied by more than one hundred millions of civilised beings, Murray and Lanman's Florida Water is today the standard perfume in society. In Europe the patronage of the wealthier classes is about equally divided among a variety of toilet essences and extracts, but in North and South America this famous perfume takes precedence of all others. Being free from the oils which form the basis no stains, and its spiritual element being perfectly pure, it is eminently refreshing and healthful. As there are counterfeits, always ask for the Florida Water, prepared by Lanman and Kemp, New York.

Radway's Remedies.

IN FRANCE.

EXTRACTS FROM THE PARIS PAPERS.

Of wonderful cures of Asiatic Cholera, Disentery Colics, Diarrhea, Cramps, Twenty drops of Radaway's Ready relief in a tumbler of the seine water and other drinking waters contraining large quantities of Chloride of Sodium, Magnesium, Limestone, and other diuretic and diarrhentic constituents, that runs through the system like quicksilver, causing the most painful discharges from the bowels and bladder, protects all who drink of these waters from pain, inconvenience, and continued draining, either from the bowels or urinary passages.

GREAT CURE OF

OVARIAN TUMOR OF TWELVE YEARS' GROWTH BY RADWAY'S SARSAPARILLIAN RESOLVENT.

Some weeks since trustworthy information was sent us of the marvelous cures effected by Radways Ready Relief, in Paris, of persons suffering painful discharges from the bowels and urinary passages, caused by the drinking of the Seine and other waters, and of Cholera, Diarrhea, Dysentery. Cramps, Colics, &c., and Diabetes Urinary Diarrhea, Weakness, Irritation, and Inflamation of the Bladder, by diluting 20 drops of Radway's Ready Relief in a tumbler of water. The Ready Relief used in this way proved not only a sure cure, stopping the most severe pain in from one to twenty minutes, but was found to be a more strengthening tonic, appetizing and delightfully refreshing beverage than the best French Brandies or Bitters. As a further evidence of the superior excellence of Dr. Radway's Remedies, and the wonderful success they are meeting with in France, especially Paris, the home of medical genius and the city of modern sciences, where the most eminent of American physicians go to complete their medical knowledge, we present the following unsolicited and freewill testimonial of the great curative virtues of Dr. Radway's Remedies, from the

CONSTITUTIONAL GAZETTE.

Published at 6 Rue Scribe, Paris, July 12, 1869.

It will be seen by this report that Radway's Remedic Relief has cured 'Asiatic Cholera.' Radway's Sarsaparillian resolvent, 'Cosumption and Scrofula;' Radway's Pill, 'the best purgative and corrector of the system.'

These simple medicines have out cured and achieved a complete conquest over the best medicinal skill in Paris, in fact of the world Dr. Radway would here state that the following testimonial was published with said newspaper, and the publication of the same in the Gazette he can only attribute to the sincere regards of the publishers for the 'Public Good'. The great success of these remedies in Paris, where our American doctors go to perfect themselves in medical knowledge, leave them very far in the rear. Radway's remedies beat the instructors of our medical men. Read the testimony.

THE EFFICACY OF ROOTS AND HERBS.

The march of experimental science, since the begining of the present century, is something astonishing. The great treasury of nature has been opened, and though we have but just put our hands on what lies under the lid, we have seen enough to infer what is below, and what is yet in store forus.

The dark ages wasted much time in strife and ignorance, and were still infants in the march of improvement, but better things are daily dawning upon us. Thus, to confine our attention to our walk of improvement in science, what strides have been made toward purifying our cities and improving our medical treatment. The Romans, it is true, had found the salutary virtues of water, and used if freely. But water is one (and a great one) among thousand sanitary powers that lie neglected at our feet.

We are just beginning to wake up to the fact that every root and grass at our feet has virtues beyond price. Yet the very dog and cat might have taught us the truth; and now civilized man has often to go to the savage to receive the secret of some wondrous power in a neglected herb.

Happy man to have reached a day when the sanguinary and poisonous phase of mineral drugging is nearly over. It is evident that a milder vegetarian materia medica will soon supersede it; and the remark of Napoleon I. to Dr. Corvisart: 'You have killed more men than I have,' will not be applicable to future leeches.

We have been led to these reflections by considering Dr. Radway's new and admirable discovery, which appears destined to supersede much of the misery and mischief caused by what has hitherto been called Medical Treatment. It would exceed our limits to expatiate on all that it has been proved to do; but we may add that ample experience has now show that consumption and scrofula, even in agravated forms, give way before it, and that it has the rare power of disolving calculi.

Then, again, Radway's ready relief is sure cure for cholera, and stop the most violent pain, either internal or external, in from one to 20 minutes. Nor can the charge of imperfect testing be applied to it, for it was tried throughout the war, both as a proventive and cure of all mategnant and malaries fevers, dysentery, colds, and rheumatismo—and the resuls was marked success.

Then, again, Radway's Pill are a perfect boon to a large class of invalids, for they are both a purgative and corrective.

One of these pills used as a dinner pill insures a good digestion, and will cure dyspepsia.

We may add, for the interest of those in Europe ignorant of the matter:—

That the secret of Dr. Radway's Sarsaparillan Resolvent in curing Consumption and Scrofula, of disolving Tumors, Calculi, Stone, Gall Stone—is its Resolving properties of melting away, so to speak, of hard substances; of its supplying the blood with the constituents of life, vigor, strength richness, and purity, and enabling this great source of life to hold in solution all its constituents. It is not an accidental discovery of simples, gathered at random by inexperienced persons, but a scientific combination of vegetable substances yielding great medicinal properties—culled from the vegetable kingdom by experienced botanists, and subjected to the tests of the most searching and powerful chemical analysis—and combined and associated so as to secure perfect harmony of the ingredients used, in accordance of their Pharmacentical Equivalents; in fact, it is the most scientific combination of ingredients, possessing medicinal or remedial properties of the vegetable kingdon in vogue. Truly has Dr. Radway of New York given to the Old World in his Ready Relief and Sarsaparillian Resolvent the nucleus of a new system of medicine.

That it is entirely composed of Roots and Herbes.

That it is in such repute in America, that it has large laboratories in New York and at Montreal.

In short, it appears full time that the attention of Europe should be directed to this great advocate in medicinal treatment, which amounts to almost revolution, overthrowing the ancien regime of mineral poisons and violent purgatives.

OVARIAN TUMOR CURED.

Never has a medicine taken internally been known to have cured tumors either of the womb, uteri, ovaries, or bowels; the knife has been the sole reliance in the hands of experienced surgeons, but Dr. Radway's Sarsaparilian settles this question, for it has cured over Twenty Persons of Ovarian Cysts and Tumors, as well as Tumors in the Bowels, Uterus, Womb, Liver-Dropsical Effusion, Asoites, and Calculus Concretions. The known ingredientr of Dr. Radway's Resolvent were claimed by Sir Benjamin Brodie—used in their crude form, uncombined, to to possess the power of dissolving stone in the bladdder, and curing all irritations of the Bladder and Urinary Organs, of correcting and checking great and involuntary discharges of water, and now in the present improved and scientific combination of these ingredients in the Sarsaparillian Resolvent, it will more effectually cure and remove Tumors and all other hard substances.

It is called 'Resolvent,' for it dissuades and melts away Tumors, Nodes, Hard Swellings, Lumps, Concretions in the Joints, Groin, Testes, Bladder, Kidneys, &c., and will save the patient the painful necessity of undergoing operations of the surgeon's knife.

The following letter or certificate of cure was received on the 20th day of July, 1869. The lady is unknown to us, but she is well known in Beverley, Mass.; those interested can write to her and make inquiries of her status of the select men of the town. We publish the letter at the lady's request:—

TUMOR OF 12 YEARS' GROWTH, CURED,

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes it. that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number ofclerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling. in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes alerady mentioned, Sundays an holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. Mauá & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) her annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourt—Once the money deposited exceeds weny-five thousand dollars currency, or one thousand dollars silver. the depositor, if he wished can open an account current, according to the rules established by the Bank.

Fifth | In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

BISHOP'S GRANULAR EFFERVESCENT CITRATE OF MAGNESIA,
Introduced and prepared by
ALFRED BISHOP,
Manufacturing Chemist,
17 & 18 SPECK'S FIELDS, MILE END NEW TOWN, LONDON.

This perfectly white and delicately clean granuated preparation possesses remarkable effervecent qualities, and far surpasses the ordinary Seidlitz Powder in its cooling, refreshing, and mild aperient properties, as well as in its flavor as a saline draught. It is particularly well adapted for women and young children, on account of its most agreeable flavor and mild effect.

N.B. The genuine has the name of BISHOP upon the Bottle, also the Name and Trade Mark upon the Label, and is sold in convenient sizes, and secured in so perfect a manner that it may be shipped with safety to any part of the world.

Manufacturer also of Granulated and Effervescent Carbonate of Iron, Citrate of Iron Citrate of Quinine, Citrate of Quinine and Iron Carbonate of Lithia in Tubes, Citrate of Lithia,, Vichy Salt, Seidlitz Mixture, and all other Granulated Preparations.

IN CHANCERY.—CAUTION.—BISHOP'S GRANULAR EFFERVESCENT CITATE OF MAGNESIA.—Mr. Bishop, having discovered tha the Label which he has used for the last five years was being imitated, recently applied to the Court of Chancery for an Injunction to restrain such imitation. The Injunction was immediately granted, and the Defendant was ordered to pay all Mr. Bishop's Costs and destroy the Labels complained of.

Also, BISHOP'S NEW REMEDY for SEA-SICKNESS, should be in the hands of every person travelling by Sea. 77,26pft,j1869

THE PERFECTION OF PREPARED COCOA
Maravilla Cocoa.

Sole Proprietors,
TAYLOR, BROTHERS, London.

The Cocoa [or Cacao] of Maravilla, is the true Theobroma of Linnæus. Cocoa is indigenous to South America, of which Maravilla is a favored portion. Taylor Brothers having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of homœpaths and cocoa-drinkers generally, but many who had hitherto not found any preparation to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

"A SUCCESS UNPRECEDENTED,"

See following Extract from the 'Globe' of May 14, 1868:—

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers discovered the extraordinary quality of 'Maravilla' Cocoa. Adopting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœpaths and invalids we could not recommend a more agreeable or valuable beverage.

Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate.

COUGHS, COLDS, RHEUMATISM DYSENTERY, AND FEVER.

The *Times*, of India, states "that the discovery of D. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination.' This remedy is invaluable in the above diseases and is indispensable to Emigrants. Travellers and Families, a few doses being generally sufficient

Dr. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See *Lancet*, December 31, 1864.

Dr. J. COLLIS BROWNE'S CHLORODYNE.—Extract from *Medical Times*, January 12, 1866:—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not 'supply a want and fill a place.'"

Dr. J. COLLIS BROWNE'S CHLORODYNE is the most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz.:—Dr. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in the case of Brown v. Freeman, when Dr. J. COLLIS BROWNE'S CHLORODYNE. Extract from the General Board of Health, London, as to its efficacy in Cholera:—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases." the Vice-Chancellor stated "that the whole statement of Freeman was deliberately untrue, and he regretted to say it had been sworn to."

A BOUQUE

VIOLETS and WATER LILIES,

Exhale an exquisite fragrance, agreeable to the most fastidious, but in the Florida Water of Murray and Lanman, it is not to these two floral beauties alone that we are confined; in it we have the full fragrance of a whole bouquet of blooming tropic flowers.

MOSS-ROSE and JASMIN,

Exquisite in their colors, are yet poor by comparison with the clouds of incense that arise from Murray and Lanman's Florida Water, so justly styled "The Queen of Floral Perfumes."

ORANGE FLOWERS and HONEY-SUCKLE,

Delightful in the pure delicacy of their sweet breath, but faint and fading when compared with the refreshing and strengthening perfume of Murray and Lanman's Florida Water

PRIMROSES and HELIOTROPE,

Full of sweet perfume, and agreeable to many, but void of those important hygienic properties which make Murray and Lanman's Florida Water so welcome in the sick-room.

DAISIES and BUTTERCUPS,

Nature's every-day perfumes, exhaling floral incense familiar to us all, but from which we turn eagerly away to the more refined delicacy of fragrance of Murray and Lanman's Florida Water.

LAVENDER and MAGNIOLIAS,

Rich with heavy perfume, but not invigorating nor refreshing, and so sweet that the sense of smell soon cloys, and longs for the simple freshness of Murray and Lanman's Florida Water.

SWEET BRIAR and CLOVER BLOOM.

Bringing memories of country life, and exhaling a perfume pure and delicate, but lacking that uniformity and permanence, so marked a feature in Murray and Lanman's Florida Water

MIGNONETTE and DAFFODILS,

Of poetic celebrity, sweet and pleasant in the perfume, but still only the perfume of single flowers. In Murray and Lanman's Florida Water we have the combined fragrance of more than all these floral beauties. We have the unapproachable richness of the far-off tropic flowers made permanent, and giving justly to this exquisite Toilet-Water the title of

THE EVERLASTING PERFUME

☞ Purchasers should be careful to ak for the "Florida Water," prepared by "Lanman and Kemp," New York, who are the sole proprietors of the genuine perfume.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co, in Montevideo has already provided for the working classes it. that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number ofclerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, er old age, instead of spending them in the immoral gambling. in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble examplo of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes alerady mentioned, Sundays an holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) her annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourt—Once the money deposited exceeds weny-five thousand dollars currency, or one thousand dollars silver. the depositor, if he wished can open an account current, according to the rules established by the Bank.

Fifth | In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

PETER MOLLER'S
(Knight of the Vasa Order.)
PUREST COD LIVER OIL,

Free from disagreeable Smell and Taste.

This celebrated Oil, which is made on an entirely new method, invented by Mr. Peter Moller, of Christiana, is now acknowledged by the Faculties and the most eminent Physicians of Europe, to be the best Cod Liver Oil known. It is the only one for which the following Exhibition Medals have been awarded, viz.:—1862 London International Exhibition—The only Medal.

1865 Bergen Royal Society of Norway—The only Gold Medal.

1866 Boulogne International Exhibition—The Great Silver Medal.

1867 Paris International Exhibition—The only Silver Medal, heading 27 competitors.

The fact that it is made under the immediate superintendence of Mr. Peter Moller, at his own Manufactories, at the Lofoten Islands, where it is bottled, sealed, and capsuled, as a guarantee, for its genuineness, as well as that it will keep in every climate for years without turning rancid. BISHOP'S GRANULAR EFFERVESCENT CITRATE OF MAGNESIA,
Introduced and prepared by
ALFRED BISHOP,
Manufacturing Chemist,
17 & 18 SPECK'S FIELDS, MILE END NEW TOWN, LONDON.

This perfectly white and delicately clean granuated preparation possesses remarkable effervecent qualities, and far surpasses the ordinary Seidlitz Powder in its cooling, refreshing, and mild aperient properties, as well as in its flavor as a saline draught. It is particularly well adapted for women and young children, on account of its most agreeable flavor and mild effect.

N.B. The genuine has the name of BISHOP upon the Bottle, also the Name and Trade Mark upon the Label, and is sold in convenient sizes, and secured in so perfect a manner that it may be shipped with safety to any part of the world.

Manufacturer also of Granulated and Effervescent Carbonate of Iron, Citrate of Iron Citrate of Quinine, Citrate of Quiniue and Iron Carbonate of Lithia in Tubes, Citrate of Lithia, Vichy Salt, Seidlitz Mixture, and all other Granulated Preparations.

IN CHANCERY.—CAUTION.—BISHOP'S GRANULAR EFFERVESCENT CITATE OF MAGNESIA.—Mr. Bishop, having discovered tha the Label which he has used for the last five years was being imitated, recently applied to the Court of Chancery for an Injunction to restrain such imitation. The Injunction was immediately granted, and the Defendant was ordered to pay all Mr. Bishop's Costs and destroy the Labels complained of.

Also, BISHOP'S NEW REMEDY for SEA-SICKNESS, should be in the hands of every person travelling by Sea. 77,26pft,j1869

THE PERFECTION OF PREPARED COCOA
Maravilla Cocoa.

Sole Proprietors,
TAYLOR, BROTHERS, London.

The Cocoa [or Cacao] of Maravilla, is the true Theobroma of Linnæus. Cocoa is indigenous to South America, of which Maravilla is a favored portion. Taylor Brothers having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of homœpaths and cocoa-drinkers generally, but many who had hitherto not found any preparation to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

"A SUCCESS UNPRECEDENTED,"

See following Extract from the 'Globe' of May 14, 1868:—

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thoroughly success had been achieved until Messrs. Taylor Brothers discovered the extraordinary quality of 'Maravilla' Cocoa. Adopting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœpaths and invalids we could not recommend a more agreeable or valuable beverage.

Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate.

COUGHS, COLDS, RHEUMATISM DYSENTERY, AND FEVER.

The *Times*, of India, states "that the discovery of D. J. COLLIS BROWNE'S CHLORODYNE is a greator blessing to the human race than even the discovery of Vaccination.' This remedy is invaluable in the above diseases and is indispensable to Emigrants. Travellers and Families, a few doses being generally sufficient

Dr. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See *Lancet*, December 31, 1864.

Dr. J. COLLIS BROWNE'S CHLORODYNE.—Extract from *Medical Times*, January 12, 1866:—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not 'supply a want and fill a place.'"

Dr. J. COLLIS BROWNE'S CHLORODYNE is the most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz.:—Dr. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in the case of Brown v. Freeman, when Dr. J. COLLIS BROWNE'S CHLORODYNE. Extract from the General Board of Health, London, as to its efficacy in Cholera:—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases."

the Vice-Chancellor stated "that the whole statement of Freeman was deliberately untrue, and he regretted to say it had been sworn to."

A BOUQUE

VIOLETS and WATER LILIES,

Exhale an exquisite fragrance, agreeable to the most fastidious, but in the Florida Water of Murray and Lanman, it is not to these two floral beauties alone that we are confined; in it we have the full fragrance of a whole bouquet of blooming tropic flowers.

MOSS-ROSE and JASMIN,

Exquisite in their odors, are yet poor by comparison with the clouds of incense that arise from Murray and Lanman's Florida Water, so justly styled "The Queen of Floral Perfumes."

ORANGE FLOWERS and HONEY-SUCKLE,

Delightful in the pure delicacy of their sweet breath, but faint and fading when compared with the refreshing and strengthening perfume of Murray and Lanman's Florida Water

PRIMROSES and HELIOTROPE,

Full of sweet perfume, and agreeable to many, but void of those important hygienic properties which make Murray and Lanman's Florida Water so welcome in the sick-room.

DAISIES and BUTTERCUPS,

Nature's every-day perfumes, exhaling floral incense familiar to us all, but from which we turn eagerly away to the more refined delicacy of fragrance of Murray and Lanman's Florida Water.

LAVENDER and MAGNIOLIAS,

Rich with heavy perfume, but not invigorating nor refreshing, and so sweet that the sense of smell soon cloys, and longs for the simple freshness of Murray and Lanman's Florida Water.

SWEET BRIAR and CLOVER BLOOM.

Bringing memories of country life, and exhaling a perfume pure and delicate, but lacking that uniformity and permanence, so marked a feature in Murray and Lanman's Florida Water

MIGNONETTE and DAFFODILS,

Of poetic celebrity, sweet and pleasant in the perfume, but still only the perfume of single flowers. In Murray and Lanman's Florida Water we have the combined fragrance of more than all these floral beauties. We have the unapproachable richness of the far-off tropic flowers made permanent, and giving justly to this exquisite Toilet-Water the title of

THE EVERLASTING PERFUME

☞ Purchasers should be careful to ak for the "Florida Water," prepared by "Lanman and Kemp," New York, who are the sole proprietors of the genuine perfume.
